

TantraWeb Services Price List

ADSL Broadband

We offer fast and accessible support and will program the software for you. You need a Router (either wireless or wired) and we will put the settings on it - you just have to plug it in.

Here are all the services we can offer if you feel you need more bandwidth and download capability:

	Speed	Contention	Cap**	Price/Month	Contract	NewSign Up	Migration
A	2Mb/s	50:1	5Gb	£17.99+Vat	Annual	free	free
B	2Mb/s	50:1	UnCapped	£23.50+Vat	Annual	free	free
C	2Mb/s	20:1	UnCapped	£32.50+Vat	Annual	free	free
Di	8Mb/s Max*	50:1	4Gb Cap	£20.99+Vat	Annual	£40	free
Ei	8Mb/s Max*	50:1	30Gb Cap	£22.99+Vat	Annual	£40	free

(We always advise annual payment. Monthly contracts A, B or C have £55 (BT)set up Charge, Di & Ei have £40)

* 8Mb/s Adaptive is a 'best efforts' product. Connection will be much faster outside busy network usage times. There is the same charge irrespective of your max connection speed.

Only 25% of lines in the UK support greater than 6.5MB/s but many city lines will support 5Mb/s.

(40% support up to 6Mb/s, 78% support up to 4Mb/s and 93% support up to 2Mb/s)

Tests will run on your line for the first 10 days to determine the Maximum Stable Rate supported speed on your line (MSR). It is important to have the latest router drivers installed (new versions are released regularly) USB Modems will not deliver the necessary speed.

** the average monthly download for most users is under 2Gb /month but if you download lots of movies, and stream radio daily then you may want to look at our other services which have a 30Gb Cap or Uncapped costing a few pounds more. In calculating your download (Cap) requirements, Normal Web Browsing uses 2Mb /hr, email with attachments uses about 2Mb/hour, Radio streaming uses 18Mb/hr and video streaming about 200Mb /hr. You probably only use your computer for a few hours each day. (1024Mb = 1Gb)

If your line only supports 1Mb or 1.5Mb then it is still charged at the new standard rate (this is because the line is determining the speed and no provider can better it)

Email and Domain Hosting Services Offered

Retail Price (ex vat)

POP3 Email (includes dial-up)

Dial-up Accounts (Basic Registration fee)

£35 Sign up, FREE Service, Pay as you Go Calls
